Evanhoe & Associates awarded VETS 2 Service-Disabled Veteran Owned Small Business Government-Wide Acquisition Contract

Riverside, Ohio – Oct 27, 2017 – Evanhoe & Associates, Inc., as the Prime Contractor with teammates Suntiva, Digital Technologies, Macalogic, and Freeport Technologies, was awarded one of 70 contracts to provide common IT services regularly purchased by the federal government. VETS 2 will also support projects that require new or emerging IT services. Examples of IT services within scope include: Data Management, Information and Communications Technology, IT Operations and Maintenance, IT Security, Software Development, and Systems Design.

This Government-Wide Acquisition Contract (GWAC) has a five-year base period with one, five-year option period. VETS 2 will enable government agencies to achieve their socio-economic goals and objectives without the time and expense of an open-market procurement. Because VETS 2 is set-aside exclusively for SDVOSBs, agencies can receive SDVOSB credit from awarded task orders.

Chuck Evanhoe, President of Evanhoe & Associates, said “This is another great addition to the work Evanhoe is already doing for the US Air Force, US Department of Commerce US Patent and Trademark Office, as well as for the US Department of Interior Bureau of Reclamation. We’re proud to represent Ohio as the only company selected from our home state and look forward to providing exceptional IT services to the federal government across the globe under the VETS 2 contract.”

###

About Evanhoe & Associates, Inc.

Evanhoe & Associates, Inc., headquartered in Riverside, Ohio, is a service-disabled, veteran-owned small business (SDVOSB) full-service Information Technology (IT) solutions provider, systems integrator and program management company. They deliver value-added information technology solutions leveraging their world-class expertise in providing accurate, actionable data from automatic identification and data capture (AIDC) systems.
